TASTING NOTES

2023 Run Free by Singlefile Shiraz
Great Southern, Western Australia

VINEYARD & WINEMAKING

Great Southern shiraz typically exhibits a compelling combination of spices, pepper, juicy red berries and plum flavours. The cooler climate of the region typically produces a more elegant, 'food friendly' style when compared with the better-known and 'bigger' shiraz styles of the Barossa and McLaren Vale regions of Australia.

This Great Southern shiraz was picked and crushed to stainless steel tanks where it underwent a very gentle maceration over a fourteen day period. The must was then pressed and the wine was transferred to oak (a combination of new and second use French oak barriques) for eleven months before it was prepared for bottling.

THE WINE

The wine is a deep blueberry colour. The aromatics showcase notes of red berries, dark plum and charry oak characters. There are also hints of cool climate spicy undertones and savoury notes. The palate is effortlessly smooth with juicy red and black berry fruit characters flowing through to a long, subtly spicy finish balanced by fine soft tannins.

New Release

TECHNICAL SPECIFICATIONS

Alc: 13.6% pH: 3.70 TA: 5.1 g/L Cellaring: Up to 15 years
