

## 2011 Porongurup Riesling

The 2011 Riesling is made from an established vineyard in the Porongurup region of Western Australia. Planted in 1998, the vineyard is low yielding with laterite soil and a north/south orientation particularly well suited to this varietal. Harvested on 20<sup>th</sup> March 2011, the fruit was cold fermented in tank straight after pressing using all natural yeasts resulting in a floral, yet delicate, dry riesling.

A softly textured, crisp style with aromas of apple blossom and citrus tones. A clean and pure palate with subtle mineral undertones and a tight acidic finish.

This wine is well suited to seafood or spicy dishes.

Drink now or this will continue to develop in the bottle for up to 10 years.

Technical specifications:      ph: 3.17      TA: 6.6g/L      Alc: 12.3      RS: 0.5g/L
